- System development.
- Project maintenance.

## SKILLS

React

Next.js

Express

Node.js

PostgreSQL

MongoDB

JavaScript

TypeScript

Golang

Tailwind CSS

Three.js

Git

## PERSONAL PROJECTS

### Ethiopian Railways (02/2023 - 06/2023)

- As part of my final year project in Computer Science, I developed a comprehensive web-based application for booking train tickets within the Ethio-Djibouti railway system. This project aimed to streamline the ticket booking process, providing users with a convenient and efficient platform to reserve their seats for travel.

### Kabu Furniture Store (01/2024 - 03/2024)

- I worked on a 3D furniture store, an innovative platform built specifically for designers, architects, and engineers, offering a seamless experience to find, explore, and source the perfect furniture for your vision.
